Chapter I -- The House at West Egg

"Then wear the gold hat, if that will move her; If you can bounce high, bounce for her too..."

In my younger and more vulnerable years my father gave me some advice that I've been turning over in my mind ever since.

"Whenever you feel like criticizing any one," he told me, "just remember that all the people in this world haven't had the advantages that you've had."

He didn't say any more, but we've always been unusually communicative in a reserved way, and I understood that he meant a great deal more than that. In consequence, I'm inclined to reserve all judgements, a habit that has opened up many curious natures to me and also made me the victim of not a few veteran bores.

In this section of The Great Gatsby (1925), F. Scott Fitzgerald develops the central themes that define the work's enduring place in fiction and world literature. Each argument and narrative turn builds upon the premises established in the opening pages, inviting careful reflection from the attentive reader.
